

# Professional Series Portable Firmware UpgradeKit R05.16.01 Customer Release Notes

**NOTE: Professional CPS R06.11.05 or later is recommended to be used with this firmware.**

This release of radio firmware only supports the Prime family of Professional Series Portable Radios. All bands in this family are supported. For any questions, please contact Customer Resources at 1-800-927-2744.

## I. Enhancements

None

## II. Corrections

Radio is unable to receive MDC Inhibit/Cancel Inhibit, Emergency Call and Call Alert while in the menu mode.

This fix is only for decoding MDC emergency call in menu mode.

## III. Known issues

None
